Vol. 2

# RAIL INTERNATIONAL

## CONTENTS - YEAR 1972

### No. 1 — JANUARY 1972

<b>Editorial</b>	
<b>The UIC in the view of its new Secretary-General</b> , by Mr. B. de FONTGALLAND	1
<b>Cost-performance accounting of the Permanent Way Department of the German Federal Railways</b> , by E. LÖFLUND	4
<b>Meetings of the Permanent Commission and the Management Committee of the International Railway Congress Association</b> , Brussels, 30 November 1971	28
<i>Appendix I</i> : List of members of the Management Committee	29
<i>Appendix II IRCA/UIC</i> : Enlarged meeting of the Management Committee of the IRCA. Lausanne; June 1973.	
Technical Programme	31
Revision of the Rules and Regulations of the IRCA	34
<b>Board of Management and General Assembly of the International Union of Railways</b> , Paris, 13-15 December 1971	43
<b>Board of Management's administrative report to the General Assembly of the UIC</b> , Paris, 15 December 1971	45
<b>Traffic trends on the networks of the European Members of the UIC</b>	54
<b>Air passenger traffic in 1970</b> : 382 milliards of passengers/kilometres	57
<b>United States - The railways</b> : 40 per cent of the nation's goods traffic - Less than 3 per mil of the total funds made available to transport	59
<b>Communications of ORE</b>	
Pantographs and overhead equipment at high speeds	62
Automatic coupler - Running safety	65
Wear of contact strips and of overhead equipment	67
<b>News flashes...</b>	69
<b>International events of the month</b>	71
<b>Calendar</b>	73

### No. 2 — FEBRUARY 1972

<b>Editorial</b>	
<b>Government and railway in Great Britain</b> , by C.P. SCOTT-MALDEN	75
<b>Study of the transverse stability of a railway vehicle running at high speed</b> , by R. JOLY	83
<b>Development of railway links between Britain and the Continent with particular reference to the implications of the construction of the Channel Tunnel</b> , by R. MARSH	119
<b>United States</b> : What transport users are spending ?	125
Japan : Financial results of the New Tokaido Line for 1970/1971	125
United States : Mr. Smathers Indictment	126

**Communications of ORE**

Interaction phenomena between vehicle and track	134
Loading of buffers in service	136
Braking tests on bridges	138

<b>News flashes...</b>	<b>141</b>
------------------------	------------

<b>International events of the month</b>	<b>143</b>
--	------------

<b>Calendar</b>	<b>144</b>
-----------------	------------

**No. 3 — MARCH 1972****Editorial**

The railways in their struggle to master the problems of the present and the future, by K. KALZ	147
---	-----

<b>Linear programming of empty wagon disposition</b> , by S.C. MISRA	<b>151</b>
--	------------

<b>Track measurement systems - Concepts and techniques</b> , by P.N. BHASKARAN NAIR	<b>159</b>
---	------------

<b>Large-scale trial of an integrated transport control system with the German Federal Railway.</b> The « Cybernetic Island » in the Hannover area, by O. SCHENK	<b>167</b>
--	------------

Electrified lines of the European Railways	192
--	-----

**Communications of ORE**

Fatigue of welded joints	193
Quality of rails and means of guaranteeing it	194
Synthetic insulating materials	197
Homologation of Diesel engines	199

<b>News flashes...</b>	<b>201</b>
------------------------	------------

<b>International events of the month</b>	<b>203</b>
--	------------

<b>Calendar</b>	<b>205</b>
-----------------	------------

**No. 4 — APRIL 1972****Editorial**

The American Railways, by M.F. CASTELLO	207
---	-----

<b>The new DB multi-system locomotives in the light of the Zurich discussions of Thyristor locomotives</b> , by E. GIERTH	<b>218</b>
---	------------

<b>A method for calculating the operating reliability of the electrical equipment of electric motive power units</b> , by Ch.S. KARADJOW	<b>237</b>
--	------------

<b>A two-stage queue model for a marshalling yard</b> , by O. HEIN	<b>249</b>
--	------------

<b>The Board of Management of the International Union of Railways</b> , Paris, 7 March 1972	<b>260</b>
---	------------

Air traffic (cargo and mail) in 1970	261
--------------------------------------	-----

<b>News flashes...</b>	<b>263</b>
------------------------	------------

<b>International events of the month</b>	<b>265</b>
--	------------

<b>Calendar</b>	<b>267</b>
-----------------	------------

<b>Jean TUJA - in memoriam</b>	<b>269</b>
--------------------------------	------------

**No. 5 — MAY 1972**

<b>Editorial</b>	
Reflections on the new rules and regulations of the International Railway Congress Association and the expansion of its information function, by L. LATAIRE	271
<b>The air temperature in railway vehicles</b> , by Y. VAN DER VEKEN	276
<b>Automation of Koriyama marshalling yard and the Herringbone track</b> , by N. MIYAKAWA	300
Numerical codification of motive power units called upon to cross over frontiers	321
<b>Communications of ORE</b>	
Lighter brake slipper	323
Riding stability of motive power units	324
<b>News flashes...</b>	325
<b>International events of the month</b>	327
<b>Calendar</b>	329

**No. 6 — JUNE 1972**

<b>Editorial</b>	
Development and pricing of railway services in South Africa, by J.G.H. LOUBSER	331
<b>The simulation of operational events in a marshalling yard</b> , by W.M. WUNDERLICH and R. WIEDENBEIN	336
<b>Construction of San-yo Shinkansen (Shin-Osaka-Okayama)</b> , by H. KINBARA and S. KAMADA	349
<b>Investigations in wheel slip correction devices for use on diesel-electric locomotives</b> , by L.K. FILIPPOV and Jü. M. PEREGOUĐNOV	361
<b>Problems of matching diesel engine and hydraulic transmission</b> , by G.V. POPOV	370
The UIC and the future, by B. de FONTGALLAND	381
German Federal Railway - New Board of Directors	384
<b>Communications of ORE</b>	
Vibrations of the vehicle body	385
Standardisation of wagons	387
Transmission of information between rail and motive power units	389
Identification of wagon numbers	391
<b>News flashes...</b>	395
<b>International events of the month</b>	397
<b>Calendar</b>	399

**No. 7 - 8 — JULY/AUGUST 1972**

<b>Editorial</b>	
Development of the technical foundations of the railways in Czechoslovakia, by J. STARY	401
<b>Description of a mechanised process for compiling the duty turns and duty rosters of train ticket inspectors on the Netherlands Railways</b> , by G. GREVEN and A. TER MATEN	408
<b>Computation of freight car holdings of railways. A balanced system approach</b> , by H.C. MIDHA	421
<b>The railway and environmental protection</b> , by W. BÖTTGER	425
<b>Classification criteria and classification of automatic regulating systems used on diesel-electric locomotives</b> , by P. CIORTAN	430

<b>The control of the passenger rolling stock of the Italian State Railways, by A. BURGIO</b>	437
<b>The Board of Management of the International Union of Railways, Paris, 6 June 1972</b>	444
<b>UIC Golden Jubilee Official Day, Paris, 8 June 1972</b>	444
Five years of world-wide air traffic	445
1971 : Financial results of the « Canadian National »	446
<b>Communications of ORE</b>	
Composition brake-blocks	448
Application of thyristors	449
Tests on experimental bridge deck	453
Maximum speeds attainable on wheel/rail systems	454
<b>News flashes...</b>	457
<b>International events of the month</b>	459
<b>Calendar</b>	462

### No. 9 — SEPTEMBER 1972

<b>Editorial</b>	
Staff training on the French National Railways, by R. GUIBERT	465
<b>Equipment for the contact between different electric traction systems on the Soviet railway, by V.B. LAPIN</b>	473
<b>Calculation of the optimum distance between the traction current sub-stations of electrified railways, by R.I. MIROSCHNITCHENKO</b>	484
<b>Detecting the propagation of kidney-shaped fatigue flaws in rail heads on the lines of the Hungarian State Railways, by S. KECSKES</b>	493
Passenger traffic over the North Atlantic	507
<b>Communications of ORE</b>	
Fourth International Wheelset Congress	508
Protection of materials	508
High strength bolted connections in steel construction	510
Cleaning the exterior surfaces of passenger coaches and tractive units	514
Specifications for transcontainers	515
<b>News flashes...</b>	517
<b>International events of the month</b>	519
<b>Calendar</b>	521

### No. 10 — OCTOBER 1972

Norwegian State Railways' long-term plan up to 1980, by E. HEIBERG	523
<b>International Colloquium on the sharing of railway knowledge throughout the world, Paris, 6 and 7 June 1972</b>	527
Opening session	532
Theme n° 1 — Report by Mr. PROTAT	540
Working session	554
<b>The reconstruction of Kempten terminus station as a through running station, by G. BRÄUN-LEIN</b>	566
<b>Board of Management of the UIC, Budapest, 19 September 1972</b>	578
Results achieved by the railways of the Soviet Union during the year 1971	579

DECEMBER 1972	RAIL INTERNATIONAL	811
<b>Communications of the ORE</b>		
Plasma Torch		580
Fan noise of motive power units		580
Calculation of passenger coach bodies		581
The object of automatic identification		582
<b>News flashes...</b>		584
<b>International events of the month</b>		586
<b>Calendar</b>		587

**No. 11 — NOVEMBER 1972**

<b>Editorial</b>		
The modernisation and development of the Yougoslav Railways, by V. VRANJICAN		589
<b>International Colloquium on the sharing of railway knowledge throughout the world,</b> Paris, 6 and 7 June 1972		
Theme n° 2 — Report by Mr. SQUILBIN		595
Working session		623
General conclusions		638
<b>The effects of speed improvement on the volume of traffic as for recent years experienced</b> <b>by British Railways, by J.G. SMITH</b>		641
<b>Communications of the ORE</b>		
Bogie with elastic primary suspension between axles and frame		650
Homologation of Diesel engines		652
Acceptance of Diesel engines		654
Transverse play in the suspension compatible with a good riding quality		655
Detection of wheel-flats		656
<b>New flashes...</b>		657
<b>International events of the month</b>		659
<b>Calendar</b>		662

**No. 12 — DECEMBER 1972**

<b>Editorial</b>		
Experience from 50 years of co-operation. Guidelines for the future, by G. de BRUIN		663
<b>Enlarged Meeting of the Management Committee of the IRCA, Lausanne, 3-9 June 1973</b>		
Foreword, by M. STEIN		671
Technical Programme		673
<i>SECTION I: General Planning</i>		
Intensification of railway use can solve environmental problems in agglomerations, by M. ROSCIS- ZEWSKI		679
<i>SECTION III: Operation and automation</i>		
Passenger train operation in large conurbations, by G.R. PAPWORTH and W.W. MAXWELL		693
Role played by the railways and their coordination as urban transport means in Tokyo and Osaka, by M. KITAHARA		713
<i>SECTION IV: Design and equipment of fixed installations and examples of complete installations</i>		
Relevant factors in the design of an acceptable rail passenger environment in conurbations, by B. KAUKAS		727
Automatic Route Controll of Railway Centres by Computers in real-time service, by J.J. de HEER		743

SECTION V : Rolling stock

The growth of suburban traffic, particularly in the London Area and the resultant development of British Railways rolling stock and traction equipment, by K. TAYLOR and C.M.S. MAGUIRE 755

1971 : Traffic of the large airports of Western Europe 787

Communications of ORE

Power spectral density of track irregularities 788

Study of fatigue phenomena of the rail 791

Vienna Arsenal Vehicle Testing Station 795

Air conditioning system 796

News flashes... 799

International events of the month 802

Calendar 805

General contents 1972 807
